SATELLITE TV IS HERE! ESS-340 Satellite Receiver

Because conditions in Australia for receiving satellite TV are not exactly optimal (in fact many books say it's impossible - we proved them wrong!) you need a special receiver. We took a proven commercial design and modified it with our exclusive PLL threshold extension circuitry (to lock onto low level signals). We've also crystal locked the audio and modified the bandwidth circuitry to give improved signal to noise ratio; provided continuous transponder tuning with a fine tuning control and 'S' meter to assist. Output is standard composite video of the type being received from the satellite (eg NTSC from USA, PAL from Australia, etc).

Cat D-8100

AMAZING VALUE!

\$499

RECEIVER -
IF: 70 MHz input level -35 to -5dBm
bandwidth 12MHz
Threshold: less than 6dB C/N
Video: De-emphasis is 625 line PAL
Output 1V P-P adjustable
Output impedance 75 ohms
Switchable output polarity
40dB energy dispersion removal
Audio: Subcarrier 5.4 to 8.0 MHz (tunable)
(Crystal preset 6.8MHz);
75 microsecond de-emphasis
600 ohm unbal. output impedance
-5dBm nominal output level

DOWNCONVERTER-
Input frequency range: 3.7-4.2GHz
Input level: -30 to -50dBm at
50 ohms
Noise Figure: 15dB nominal
Image Rejection: 18dB nominal
IF output: 70 MHz, 75 ohms
impedance
Supply Voltage: 15 to 18V DC

CHAPPARAL FEED HORN

The feed horn is also an essential part of the system, being replaced at the focal point of the receiving dish. It acts as a 'collector' of signal ready for processing by the Low Noise Amplifier. Obviously the feed horn must be manufactured to incredibly tight tolerances to perform properly. The feed horn chosen for Satlink System is the famous Chapparal Super Feed, regarded in the United States as the industry standard. Polarisation correction is fitted to allow reception of signals from the Intelsat satellites. Cat D-8200

DSE 6.5MHz HOBBYIST'S CRO

An oscilloscope everyone can afford!

Every hobbyist knows how valuable a good oscilloscope is: probably the most useful piece of test gear you can own. At last we've been able to obtain a new 6.5MHz CRO, at a bargain price. Here's what it offers:

- Retrace blanking for a much clearer display
- 10mV per division vertical sensitivity
- 500mV per division horizontal sensitivity
- 10Hz to 100kHz timebase (in 4 ranges)
- Internal or external sync
- And a usable response to beyond 6.5MHz!

Ideal for the bench, in service work, the classroom and assembly applications. Solid state electronics (apart from the tube) means fast warm-up and extremely low drift.

Mini Amplifier

Mini amplifier for walkie stereos, radios, etc - gives you full stereo performance with huge 1.5W peak output! Battery operated power amplifier has high/low filters, LED level displays. Mini speakers have really great sound. What a beauty! Cat A-4020

\$79

They actually speak to your child as they teach!

Speak & Math™

Math™

The Speak and Math™ can generate over 100,000 math problems. It also talks to you, telling you whether you're right or wrong. There are challenging activities and exciting games, which makes learning fun. There are three levels of difficulty, including a beginners look at geometry. There's a colourful 32 page book 'Math Talk'. The unit is battery operated with APD™ (automatic power down) which turns it off automatically; or by optional AC power supply.

'Bookshelf' Alarm Module

A great alarm system for the home, flat, etc - because it doesn't look like an alarm! So anyone entering your property could easily be fooled into thinking this was a small speaker - until they were caught! This module has another big advantage too - apart from the sensors, it's fully self-contained.

PTY LTD

Boat Alarm

Boats are pretty 'hot' property - and easy targets! This versatile and durable alarm for marine applications is perhaps the most complete boat alarm offered today! Comes complete with: High impact resistant strobe light. Electronic siren. 4 sets of magnetic switches for NO & NC applications. Two lock switches with brackets. Wiring and complete instruction. In addition the DS alarm has multiple protection zones so you can extend the system to meet your requirements... Great Value!

Cat L-5098

- Protect your boat
- Easy fitting
- Expandable to suit your needs.

\$169

Speak & Spell™

Speak and Spell™ helps develop skills in spelling, pronunciation and reading. It pronounces the word - the student keys in the spelling. It tells you whether you're right or wrong and also displays your score. It has in it a vocabulary of over 200 everyday words most often misspelled. They're the words most students have trouble with. It teaches by involving: the student hears the word, spells the word and sees the word. And it's fun! A colourful 32 page book 'Fun with Words' is included, which contains spelling games and activities plus easy-to-understand instructions. Ideal for all students, from beginners up. And it does 'n't matter if they leave the unit on: it automatically turns itself off after a few minutes to save batteries! Operates from 4 C-cells (not supplied) or optional AC Adaptor.

Dear Customers,

Quite often the products we advertise are so popular they run out within a few days or unforeseen circumstances might hold up shipments so that advertised lines are not in the stores by the time the advert appears. And very occasionally an error might slip through our checks and appear in the advert (after all, we're human too!) Please don't blame the store manager or staff - they cannot solve a dock strike on the other side of the world, nor fix an error that's appeared in print. If you're about to drive across town to pick up an advertised line, why not play it safe and give them a call first - just in case! Thanks Dick Smith Electronics
